Tecnam 'SNAP' aerobatic Light Sport Aircraft

Tecnam today announced that it will showcase its first single seat sports aerobatic aeroplane the Tecnam 'SNAP' at AERO 2013 Friedrichshafen, Germany on the 24th of April.

AERO 2013 Friedrichshafen will see Tecnam not only launching its all new low-wing Tecnam 'Astore' LSA but a number of other new Tecnam innovations developments, including the Tecnam 'SNAP' aerobatic LSA.

Created by Fabio Russo, Tecnam's Head of Research and Development, the single seat, low wing, Tecnam 'SNAP' is now available as a LSA, ULM or Experimental category aeroplane.

Designed as both a fun and sporty plane, pilots of the Tecnam 'SNAP' enjoy an aerobatic aeroplane with a high power to weight ratio (comparable with unlimited aerobatic category airplanes), coupled with low purchasing and operating costs.

The Tecnam 'SNAP' is specifically designed to ensure that 'sporty' pilots can now also enjoy the pleasure of flying a Tecnam aeroplane. The Tecnam 'SNAP' offers incredible performance and is easy to fly for anyone having a basic taildragger experience.

For 65 years Tecnam has built its reputation through the development of innovative, stylish and affordable aeroplanes for all aspects of General Aviation flying. The Tecnam 'SNAP' offers aspiring aerobatic pilots a wonderful flying experience.

For more information on the Tecnam 'SNAP' aerobatic LSA, please visit us at AERO 2013 Friedrichshafen, Germany from 24 to 27 April or contact your local dealer or Walter Da Costa, Tecnam Sales and Marketing, tel +34 616 481143, w.dacosta@tecnamspain.es

About TECNAM “Quality Aircraft since 1948”

TECNAM traces its roots back to the activities of the Italian brothers Luigi and Giovanni Pascale, who developed and produced innovative aircraft soon after the end of WWII (1948) and have continued ever since to create original models that gained worldwide recognition under the name Partenavia. Established in March 1986, Costruzioni Aeronautiche TECNAM now operates in two production facilities. The Casoria facility is located adjacent to Naples Capodichino Airport. The Capua facility is located adjacent to the “Oreste Salmone” Airport.
